CAREER OBJECTIVE

Passionate Full Stack Developer proficient in Python, Django, Flask, React.js, and MySQL, looking to apply strong problem-solving abilities and a solid foundation in OOPS and DBMS to develop robust, user-centric web applications.

SKILLS

Programming Languages: Python
Frontend: HTML, CSS, JavaScript, React.js
Backend: Python, Flask, Django
Databases: MySQL
Tools: AI Tools, Git, GitHub, PyCharm, Claude
Core Subjects: OOPS, DBMS

PROJECTS

AI Resume Screening Agent
Jan 2026 – May 2026

Python, Streamlit, NLP, Scikit-learn, OpenAI API

- Developed an AI-powered resume screening system using Python, Streamlit, NLP, Scikit-learn, and OpenAI API.
- Implemented resume parsing, skill matching, experience analysis, and explainable candidate scoring using TF-IDF and Cosine Similarity.
- Added candidate ranking, skill-gap identification, and AI-generated hiring recommendations with PDF, DOCX, and TXT resume support.

Fashion Store E-Commerce Web Application
Jun 2026 – Present

HTML, CSS, JavaScript, Flask, MySQL, Pytest

- Developed a Fashion Store e-commerce web application using Python and Flask, enabling users to register, log in, browse fashion products, and place orders.
- Implemented shopping cart and order management with structured Flask routes, models, and MySQL integration; tested using Pytest.

Hybrid Text Summarization using Deep Learning
Aug 2025 – Dec 2025

Python, TextRank Algorithm, K-Means Algorithm

- Developed a Hybrid Text Summarization system using TextRank and K-Means clustering to extract important and relevant sentences from large text documents.
- Applied Natural Language Processing (NLP) techniques in Python for text preprocessing, sentence segmentation, tokenization, and feature extraction.
- Used K-Means clustering to group similar sentences and TextRank to rank sentences based on their importance, generating concise and meaningful summaries.

INTERNSHIP / EXPERIENCE

Python Full Stack Intern
Jun 2026 – Present

Tap Academy, Bengaluru

- Developed real-world web applications using Python, Django, Flask, HTML, CSS, JavaScript, and SQL.
- Gained hands-on experience in backend development, database integration, REST APIs, and debugging.
- Built AI-powered application features and followed industry practices using Git/GitHub with mentor guidance.

ACHIEVEMENTS

- Completed the Deloitte Australia Cybersecurity Job Simulation on Forage by analyzing web activity logs and assisting in cybersecurity breach investigations.
- Completed the Tata Cybersecurity Analyst Simulation on Forage with a focus on Identity and Access Management (IAM) and cybersecurity consulting practices.

EDUCATION

Government Engineering College, Challakere
2026

B.E. in Computer Science and Engineering, CGPA: 8.0

Loyola Pre-University College
2022

PUC, CGPA: 82
